Knowledge Management

Obsidian vaults and migrations, Dataview, Templater, Obsidian Sync

WORKING STYLE

- Written-first: every scope, change and handover on record
- A clear guide ships with every build
- Tested end to end before delivery

INDUSTRIES SERVED

- Trucking and logistics
- Nonprofits and churches
- Community associations
- Wedding and lifestyle brands
- IT consulting

PROFILE

Freelance systems builder who turns messy, manual processes into tools small businesses rely on every day. Builds Excel and Google Sheets systems powered by VBA and Apps Script, API and email automations, websites and apps, Canva designs, WCAG accessibility fixes and Obsidian knowledge vaults for clients across Canada and the United States.

EXPERIENCE

Freelance Systems Developer

2025 to Present

Self-employed · Fiverr and direct clients · Remote

- Design and deliver custom spreadsheet systems, automations and digital products for small businesses, nonprofits and brands in Canada and the United States.
- Run every project end to end in writing, from scoping and pricing through build, testing, documentation and handover.
- Ship a written guide with every build and verify before delivery with formula audits and full end-to-end test runs.
- Earned 5-star and 4.7-star reviews and repeat business, including a trucking company that returned to scope a larger platform build.

SELECTED PROJECTS

Horizon Transport Dispatch System

2026

Google Sheets · Apps Script · Samsara, Motive, Google Maps and WhatsApp integrations

Live dispatch hub for a Canadian trucking company: 14 tabs and 60+ Apps Script functions tracking 51 trucks, 96 trailers and 47 drivers, with yard color-coding and one-click WhatsApp dispatch. **Delivered in three phases with a 5-star review.**

Wedding Tax Write-Off Matrix for Curated Bride

2026

Google Sheets · Branded digital product

Resale-ready tax tool for brides covering US federal tax year 2026: a marriage bonus and penalty calculator on verified IRS brackets, filing status comparison, charitable and business expense ledgers, and a live KPI dashboard. **The client plans to return every year for updates.**

Church Directory Desktop App

2026

Microsoft Excel · VBA (8 modules)

Rebuilt a broken directory file into a cross-linked desktop app for a regional church association, managing 78 leader profiles and 123 group memberships with photos, vCard sharing and reports. **4.7-star review, earned on a previous Fiverr account.**

Community Association Budget Tracker

2026

Microsoft Excel · Financial dashboard

17-tab system taking a seven-figure budget from monthly actuals to a live dashboard. **2,219 formulas audited to zero errors and a full Q1 test run before delivery.**

OneNote to Obsidian Recovery Migration

2026

Obsidian · OneNoteMdExporter · Custom cleanup script · Obsidian Sync

Recovered 680 notes across 38 sections that a client believed were lost (the official importer found only 42), then cleaned and synced the vault to iPhone and Windows. **680 notes recovered from a job quoted at 30.**
